

NIC: Embedding Video into a Brightspace Discussion Post

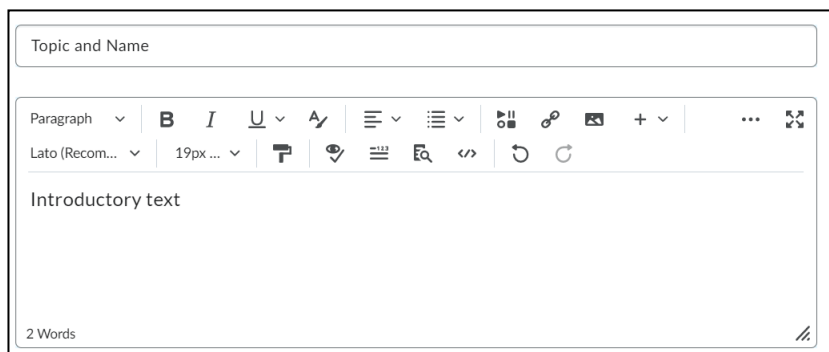

Upload video to **Kaltura My Media** (under More on blue navigation bar in course or from main Brightspace Page.) My Media is a student's own media collection of whatever they upload (audio, video, large images).

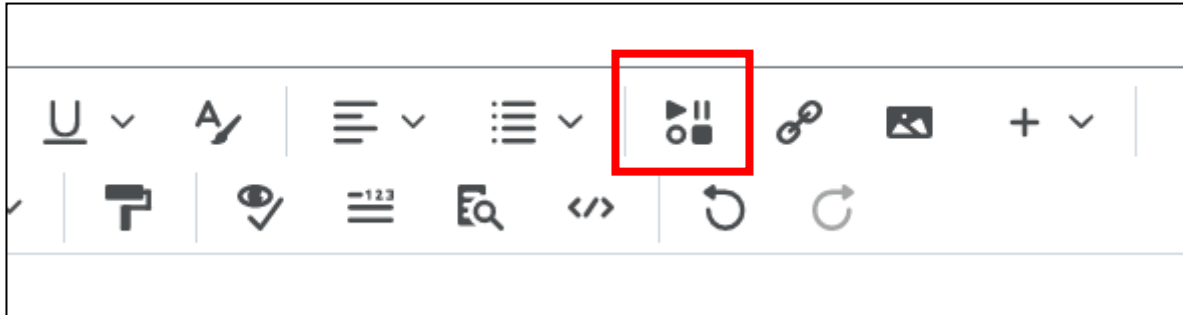

Upload video from **+Add New** (or use Kaltura Capture – recording program and it will automatically upload – OR use Kaltura App on mobile devices – also automatically upload).

Then go to discussions topic. Type in name and topic. Then type in some introductory text.

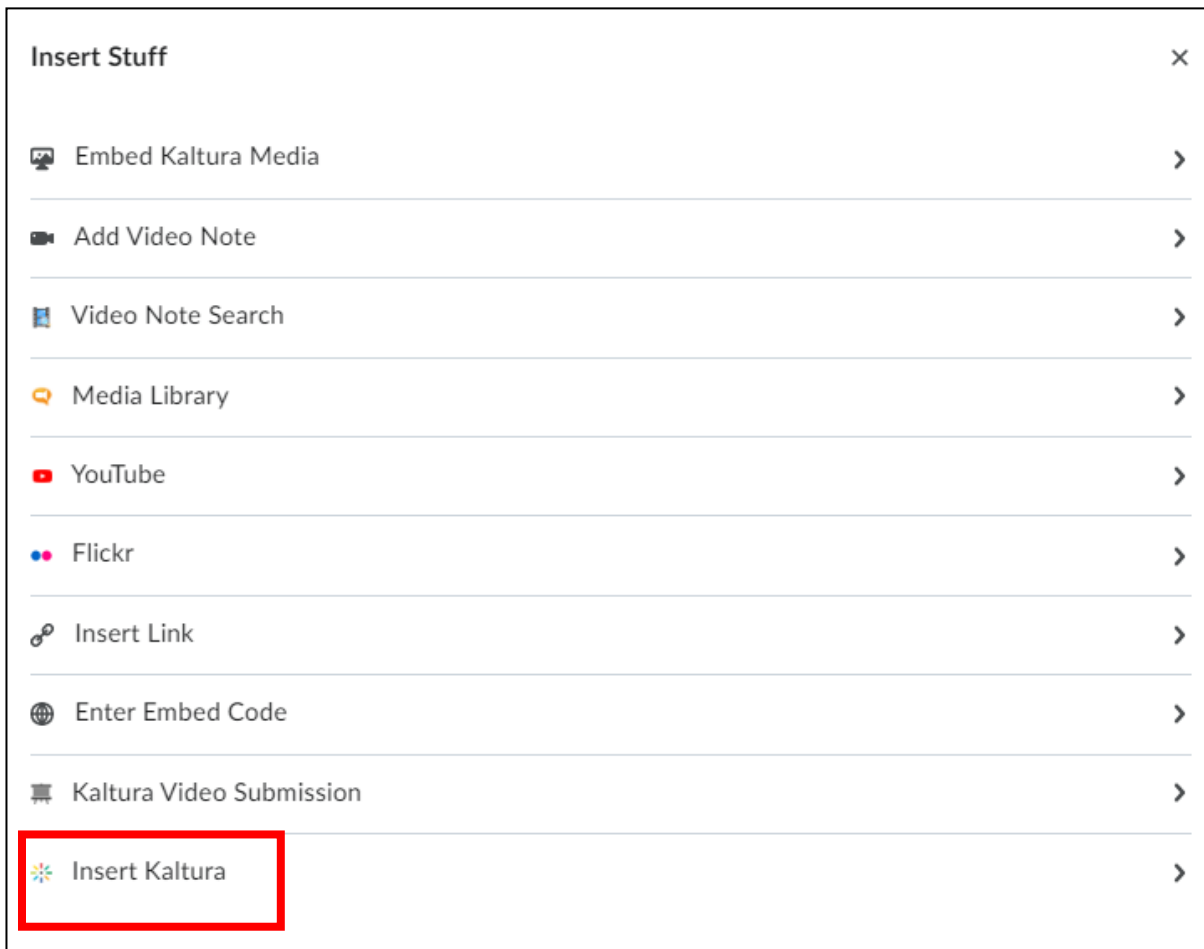

That is in the EDIT bar – **INSERT STUFF**

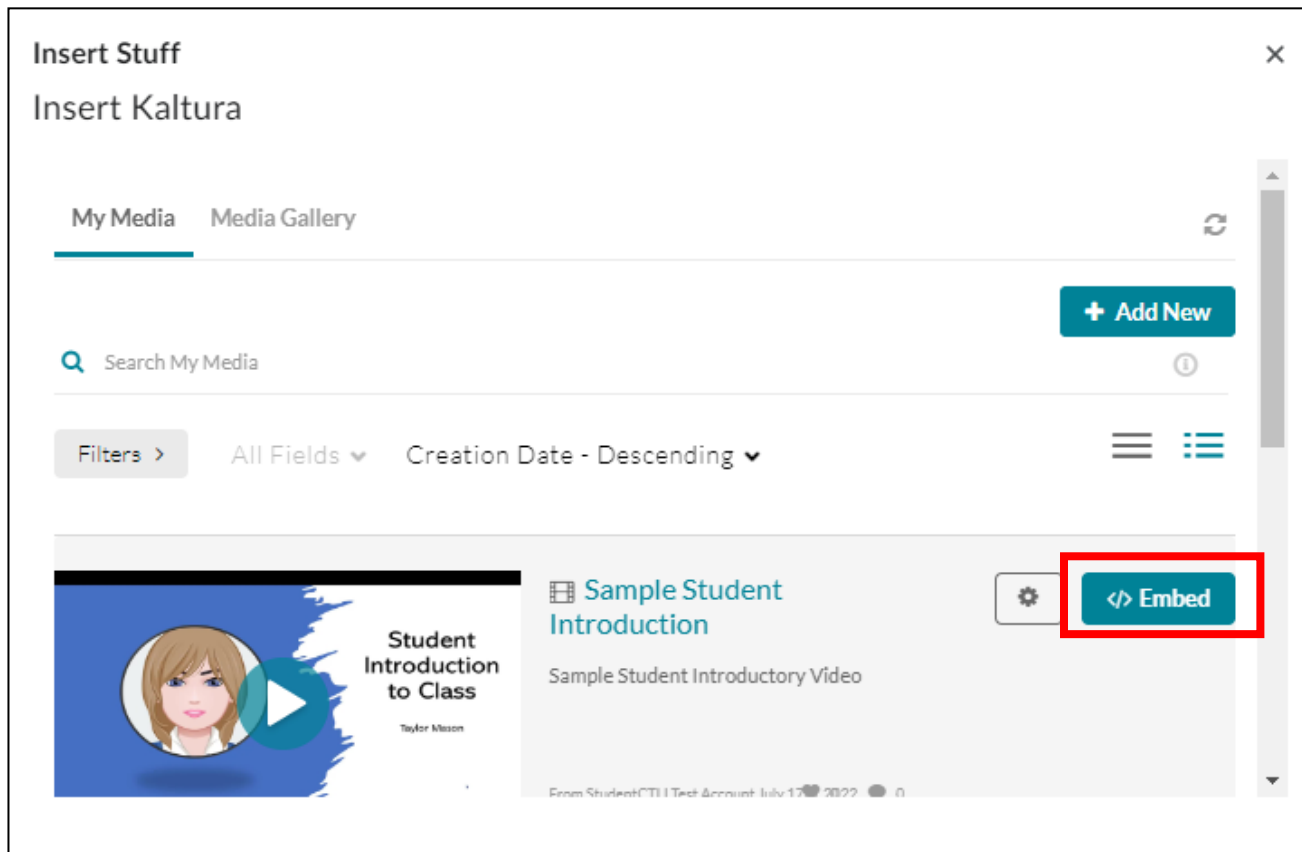

This will open a new box of options.

Go to **BOTTOM** of list and choose **INSERT KALTURA**

Choose **</> EMBED** button beside the video you want to share (teal coloured button)
If you have forgotten to upload your video – you can do from here + Add New

Insert Stuff

Insert Kaltura

My Media Media Gallery

+ Add New

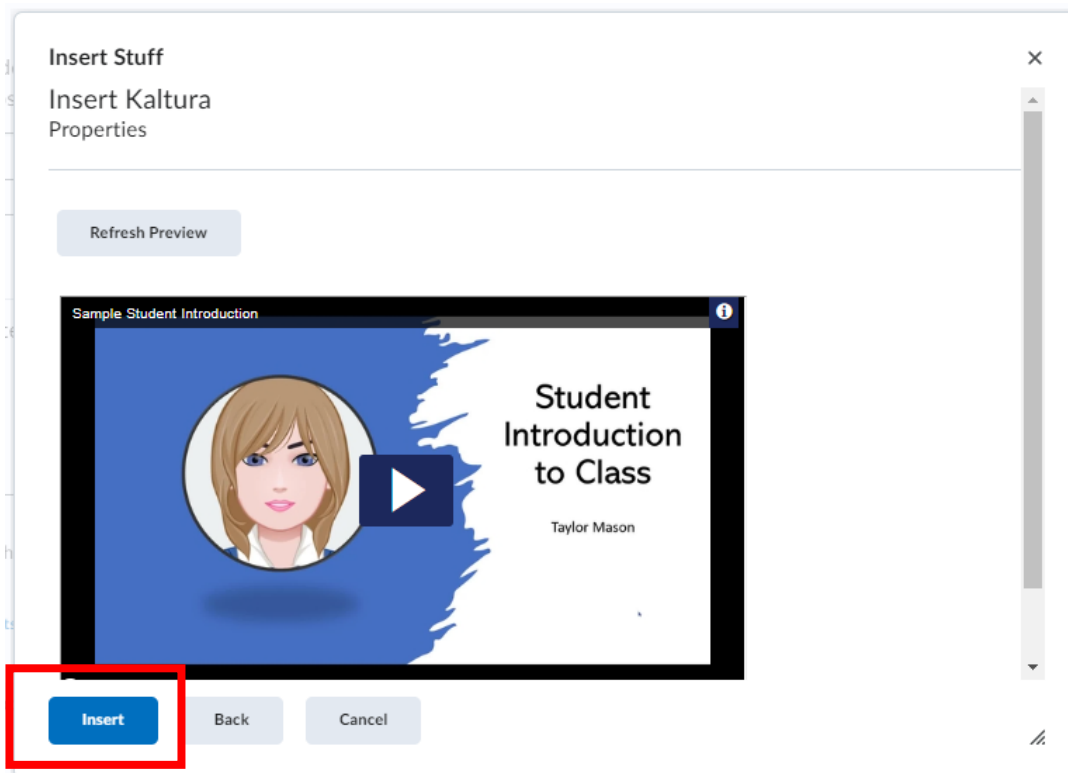

Search My Media

Filters > All Fields ▾ Creation Date - Descending ▾
